Abstract:

Acharya Sushruta explained various Anushastra karmas like Kshara Karma, Agni Karma, Jalaukavacharana. apart from Ashtavidhashastra karma for the management of diseases. These are popularly known as Para surgical procedures, which have been given special place in surgery. These procedures are very much effective in diseases that cannot be cured by any medicine or where surgery is contraindicated. These procedures are convenient for both surgeon and patient. Agnikarma has been explained in various eyediseases like Vartmagataroga, Sandhigataroga. Kshara karma is used in managing tridoshajavikaras of eyes like Arshovartma, SushkaArsha etc. In this Article an attempt is made to understand the need of these Parasurgical procedures in management of Netrarogas.

KEYWORDS: Anushastra, Kshara karma, Agni karma, NetraRogas.
